

## Clearing cache for iPads

1. Tap **Settings** on the Home screen.

2. Tap **Safari** in the **Settings** pane.

3. Tap on each of the components that you wish to clear.

- Clear History
- Clear Cookies
- Clear Cache

4. You will have to confirm each item that you wish to clear. Tap **Clear** to confirm.

When you are done clearing all of the items there will be no trace of your browsing history in Safari for the iPad.
